Profile

Final-year BTech student in AI and Data Science, dedicated to tackling complex challenges and pioneering innovative software solutions. Passionate about leveraging creativity and collaboration to drive meaningful advancements in technology, while continuously learning and evolving in the dynamic field of software engineering.

Projects

Job Buddy

- JobBuddy is a comprehensive web-based job portal designed to bridge the gap between job seekers and employers through an interactive, user-friendly platform. This system integrates job searching, job posting, alumni networking, support ticket management services into a single platform.
- HTML, CSS, JavaScript, Django, Bootstrap, WebSockets, ML.

Multi Model AI Agent

- Implemented a multi-modal AI agent using Hugging Face APIs to convert images, audio, and videos into text, leveraging advanced pre-trained models for seamless data processing.
- Technology Used: HTML, CSS, JavaScript, Hugging Face APIs.

Education

BTech - Artificial Intelligence and Data Science Chameli Devi Group Of Institution Indore CGPA : 7.75	2021 – 2025 Indore, India
Class - 12th Government Girls Higher Secondary School Oon Score : 93.80	2021 Khargone, India
Class - 10th Government Girls Higher Secondary School Oon Score : 92.80	2019 Khargone, India

Skills

Programming Languages : C, C++, Python	Technologies : HTML, CSS, JavaScript
Libraries : Numpy, Pandas, Matplotlib, Seaborn	Machine Learning : Supervised Learning, Unsupervised Learning
Frameworks & Tools : PowerBI, Django, Git	Database : SQL

Certificates

- Data Analytics internship at TechnoHacks EduTech
- Python for Data Science NPTEL

Strengths

- Teamwork and Collaboration
- Adaptability and Flexibility
